Interest Category Tally: General Interest 4; User 2; Producer 3

Scope of Committee:

The Auto-ID Technical Committee (AITC) (and its subgroups) is responsible for maintaining the HIBC Supplier Labeling and Provider Applications Standards to incorporate rapidly changing technology. The Committee is comprised of healthcare manufacturer, distributor and provider representatives, as well as companies that develop automatic identification equipment. The interest groups are designated as general interest, user and producer. The definitions for the interest groups are as follows:

General Interest: An individual representative of company or organization with a general interest in Auto-ID Technology and/or the Committee's work;

User: An individual representative of company or organization using Auto-ID Technology;

Producer: An individual representative of company or organization manufacturing, distributing, producing or selling Auto-ID Technology.
