HIBCC RELEASES UDI DECODER APP FOR ANDROID DEVICES

PHOENIX, AZ (June 1, 2015) – HIBCC has released a Unique Device Identifier (UDI) Decoder app for Android smartphones and tablets. The app will provide the ability to decode HIBCC Auto-ID symbols. It will be a useful tool for healthcare/medical personnel, manufacturers and distributors of medical devices, logistics providers, auto identification software developers, and various government agencies. Anyone with a HIBCC-labeled medical device can use this app to learn more about it.

HIBCC will release a similar app for Apple iOS users shortly.

To download the free Android version visit the Google Play store and search “HIBCC UDI Decoder” or [click here](#).

For additional information please contact the HIBCC office at: 602.381.1091 or visit www.HIBCC.org.

HIBCC is an industry-sponsored, Standards Development Organization (SDO) founded in 1983 to develop a healthcare-specific standard for the unique identification of medical products. HIBCC is accredited by the American National Standards Institute (ANSI), the European Committee for Standardization (CEN) and is recognized by the International Organization for Standardization (ISO). Our efforts are supported worldwide by affiliate offices in Europe and Asia Pacific. Additional information regarding the HIBCC organization can be accessed from the HIBCC website at: www.hibcc.org.
