Opening remarks, Day1 Recap, Day 2 Agenda Review – Joann Martino

The HIBCC for Anti-Trust were read aloud and agreed to by all committee members.

A robust discussion occurred regarding future directions of the E-Standards Committee. Members felt that there should be more focus on benchmarking, networking, and creation of HIBCC guidelines for additional transaction sets as opposed to upgrading existing guidelines to new versions not widely used.

A first draft of version 5010 of 945 Warehouse Shipping Advice was discussed by the committee and various segments were added during the discussion. It was decided that various other transaction related to the 945 including the 940 Warehouse Shipping Order, 943 Stock Transfer Shipping Advice, 944 Warehouse Stock Transfer Shipping Advice, 947 Warehouse Inventory Adjustment Advice and 888 Item Maintenance, will be compiled and posted on the HIBCC web site.

The committee discussed updating the E-Business web page on the HIBCC Web site. Liz Clark will gather feedback via email from other committee members.

Meeting adjourned at 12:00

**Next Steps:**

Post 845 after final committee review
We will work on making changes to our Web Page and further explore future directions and ways to increase additional attendee participation.

Finalize examples on the 810, 852 and create examples for the 945.

We will have at least one conference call prior to the December meeting.

The December meeting will be held on the 5th and 6th of December at the Hilton Squaw Peak Resort. Details are now on the HIBCC Web site.
