HIBCC Releases New Activity Codes To Meet 340B WAC Account Compliance for HIN Licensees

As a consequence of recent changes in 340B compliance measures HIBCC has released four new activity codes to be used by HIN licensees to identify Wholesale Acquisition Cost (WAC) account transactions.

As of April 1st, HIN requests with the following activity codes will be accepted.

<u>Activity Code</u>	<u>Description</u>
W4	WAC - Disproportionate Share Hospital
WI	WAC - Children's Hospital
WM	WAC - Free Standing Cancer Hospital
WS	WAC – Shipping Address

WAC account records are represented as location records in the HIN facility database. An add location (AL) request should be submitted to HIBCC with the corresponding activity code and valid 340B ID. If you have additional questions please contact the HIN Department via email at dba@hibcc.org.

340B/WAC HIN Enumeration Before Effective Date

HIBCC will now enumerate 340B/WAC HINs within 30 days of the program start date. In order to further assist our licensees, HIN requests for any 340B or WAC account will be accepted up to 30 days before the program effective date of the covered entity or contracted pharmacy.
