

Health Industry Business Communications Council

Registered Dental Industry Labelers: Accredited Auto-ID Labeling Standards

This list includes dental industry companies that have been assigned a Labeler Identification Code (LIC) by HIBCC or one of our international affiliates. There may be additional labelers that have registered with HIBCC in the medical products market that are also using the Health Industry Bar Code (HIBC) Standard for dental products.

Any organization that is interested in using the HIBC uniform labeling system may apply for the assignment of one or more LICs.
