

Health Industry Business Communications Council

Health Industry Number System (HIN ®) Authorized Licensees

The following companies (and/or their subsidiaries/divisions) and organizations are authorized licensees that have access to the Health Industry Number (HIN) System Database, or a portion thereof.

HIN licenses do not convey between a parent organization and/or its subsidiaries and divisions. Each subsidiary and division must maintain its own, individual license to the HIN Database in order to be an Authorized Licensee

Licensees have access to more than 1,000,000 customer location records and related HIN assignments for use in electronic commerce, customer identification, and contract administration.
